Re: Docket # 1370.249US1 - Client Ref. No. CPOL 956427 / SEQ 18612
U.S. Patent Application Serial Number: 10/751,340
Title: METHOD AND APPARATUS FOR DEVICE COMMUNICATIONS
Originally Assigned to: Gloop Labs, Inc.

Dear Mr. Lovy,

We require your assistance to advance the prosecution of the above-identified patent application. Our attempts to reach you via e-mail have so far been unsuccessful.

Attached to this letter is a copy of a Substitute Declaration; and, for your reference only, the final draft of the application and the drawings.

You and your co-inventors all signed a declaration for this patent application a few years back. You, David Arfin, and Edward Sesek made corrections to the sheets by-hand without initialing and dating the changes, and the United States Patent and Trademark Office (USPTO) has rejected your signatures because of this informality.

Please review your personal information on the enclosed Substitute Declaration. If you find any errors in your personal information, please cross-out the incorrect parts and hand-write in the correct information and initial and date your changes.

Please print out the formal documents and sign them in BLUE INK. You can sign your own sheet of paper and return it to us independent of the other inventors. We only need the one signed sheet, and you can fax that page with a cover sheet to me at 612-339-3061, or scan and e-mail them to me at jferguson@slwp.com. Please return the original, signed declaration to us via USPS, Fed Ex, etc., to be placed in our file for safe-keeping.

To date, we have received David Arfin's signed page.
